Lead Auditor

Subject:

Biden for President, Inc.- Referral Matter

On December 2, 2010, the Commission approved the final audit report on Biden for President, Inc. The final audit report includes the following matter that is referable:

Finding 2. Receipt of Contributions that Exceed Limits and Related Recordsreping Requirements, Records Supporting the Resolution of Excessive Contributions

All work papers and related documentation are available for review in the Audit Division. Should you have any questions regarding this matter, please contact Paula Nurthen or Alex Boniewicz at 694-1209.

Attachment: Finding 2. Receipt of Contributions that Exceed Limits and Related Recordkeeping Requirements, Records Supporting the Resolution of Excessive Contributions

Finding 2. Receipt of Contributions that Exceed Limits and Related Recordkeeping Requirements

Summary

Records Supporting the Resolution of Excessive Contributions

In addition, the Audit staff identified a separate category of excessive contributions that apparently were not resolved in a timely manner, projected to total \$1,092,899. These excessive contributions were presumptively redesignated to the general election; however, BFP did not provide copies of letters sent to contributors as notification for the election designation. Subsequently, BFP obtained signations to the Citizens for Biden, the Candidate's senatorial campaign. The staff muzibat who was responsible for maintaining the necessary records is now deceased. Given the Committee's unique circumstances in this matter; the circumstantial evidence presented by BFP, including a declaration from a BFP staffer who attested to sending redesignation notices within 60 days of receipt of an excessive contribution; declarations from contributors who recall receiving redesignation letters; and sample letters from BFP's forms library, the Commission concluded there was information to support BFP's assertions that it had sent presumptive redesignation letters for these contributions. BFF has not, however, satisfied the rewordkeeping requirements of 11 CFR §110.1(1)(4)(ii) and (5). Nevertheless, because BFP was able to demonstrate that it obtained signed redesignations of the matricultions to the sanatorial community, Citizens for Biden, the Commission agreed that no payment to the U.S. Treasury for such redesignated contributions is required. The Commission approved this finding.

Legal Standard

A. Authorized Committee Limits. An authorized committee may not receive more than a total of \$2,300 per election from any one person. 2 U.S.C. §441a(a)(1)(A), (c), and (f); 11 CFR §§110.1(a) and (b) and 110.9.

- B. Handling Contributions That Appear Excessive. If a committee morives a contribution that appears to be excessive, the committee must either:
 - Return the questionable contribution to the donor; or
 - Deposit the contribution into its federal account and keep enough money on account to cover all potential refunds until the legality of the contribution is established. 11 CFR §103.3(b)(3) and (4).

The excessive portion may also be redesignated to another election or reattributed to another contributor as explained below.

- C. Redesignation of Excessive Contributions. The committee may ask the contributor to redesignum the excess portion of the contribution for use in another election.
 - The committee must, within 60 days of receipt of the contribution, obtain and retain a signed redesignation better which informs the contributor that a refund of the excessive portion may be requested; or

 Refund the excessive amount. 11 CFR §§110.1(b)(5), 110.1(l)(2) and 103.3(b)(3).

Notwithstanding the above, when an authorized political committee receives an excessive contribution from an individual or a nen-multi-candidate committee, the committee may presumptively redesignate the excessive portion to the general election if the contribution:

- Is made before that candidate's primary election;
- Is not designated in writing for a particular election;
- Would be excessive if treated as a primary election contribution; and
- As redesignated, does not cause the contributor to exceed any other contribution limit.

Also, the committee may pussimptively rodesignate the excessive portion of a gammai election contribution back to the primary election if the amount redesignated does not exceed the committee's primary net debt.

The committee is required to notify the contributor in writing of the redesignation within 60 days of the treasurer's receipt of the contribution and must offer the contributor the option to receive a refund instead. For this action to be valid, the committee must retain copies of the notices sent. Presumptive redesignations apply only within the same election cycle between the committee's primary and general elections. 11 CFR §110.1(b)(5)(ii)(B) & (C) and (1)(4)(ii).

- D. Reattribution of Execusive Contributions. When an authorized cummittee receives an excessive contribution, the committee may ask the contributor if the contribution was intended to be a joint contribution from more than one person.
 - The committee must, within 60 days of receipt of the contribution, obtain and retain a reattribution letter signed by all contributors; or
 - refund the excessive contribution. 11 CFR §§110.1(k)(3), 110.1(l)(3) and 103.3(b)(3).

Notwithstanding the above, any momenture contribution that was made on a written instrument that is imprinted with the names of more than one individual may be attributed among the individuals listed unless instructed otherwise by the contributor(s). The committee must inform each contributor:

- how the contribution was attributed; and
- the contributor may instead request a refund of the excessive amount. 11 CFR §110.1(k)(3)(ii)(B).

For this action to be valid, the committee must retain copies of the notices sent. 11 CFR §110.1(1)(4)(ii) and (5).

E. General Election Contributions. If a candidate is not a candidate in the general election, any contributions made for the general election shall be refunded to the contributors, redesignated in accordance with 11 CFR §§110.1(b)(5) or 110.2(b)(5), or

reattributed in accordance with 11 CFR §110.1(k)(3), as appropriate. 11 CFR §102.9(e)(3).

F. Sampling. In conducting an audit of contributions, the Commission uses generally accepted statistical sampling techniques to quantify the dollar value of related audit findings. Apparent violations (sample errors) identified in a sample are used to project the total amount of violations. If a committee demonstrates that any apparent sample errors are not errors, the Commission will make a new projection based on the reduced number of errors in the sample. Within 30 days of service of the final audit report, the committee must submit a check to the United States Treasury for the total amount of any excessive contributions not refunded, reattributed, or redesignated in a timely manner; or take any action required by the Commission with respect to sample-based findings. 11 CFR §9038.1(f).

Facts and Analysis

The Audit staff's sample review of contributions from individuals indicated that BFP apparently received a significant number of excessive contributions that either were unresolved or were resolved but not in a timely manner. Each matter is addressed separately below.

B. Records Supporting the Resolution of Excessive Contributions

The Andit staff also identified excessive contributions that were resolved but apparently not in a timely manner, totaling \$1,092,899. The projected dollar value of the excessive contributions was \$1,055,399¹. Additional strains totaling \$37,500 were identified as the result of a separate review of contributions not included in the sample population. All of these excessive contributions were presumptively designated to the general election; however, BFP did not provide copies of letters sent to contributors as notification for the election designation. BFP did provide the Audit staff with letters obtaining redesignations of these general-designated contributions to the Candidate's senatorial campaign, CFB. The letters were all signed by the contributors and mailed after the Candidate's date of ineligibility (1-3-08), well after the receipt of these contributions. Although these letters were not presumptive redesignations as specified in the Commission's regulations, the Audit staff emisiatored these letters to be an adequate, though untimely, substitute in support the "general election" designation of the contributions.

This result is consistent with the notice provision of presumptive redesignations. A presumptive redesignation does not require a written authorization from the contributor. Rather, BFP may send a notice of the redesignation to the contributor and inform the contributor of his or her option to request that the contribution be refunded. The Audit staff determined that the signed forms authorizing the redesignation of Presidential contributions to the Senate election(s) also served to put the contributor on notice that BFP had presumed that the parties of the otherwise excessive Presidential primary election contribution was redesignated to the Presidential general election. The

A Monetary Unit Sample was used with a 95% confidence level. For untimaly resolved excessive contributions, the estimate is subject to a sampling error of \$348,491.

contributions to the Presidential primary election, however, were excessive until the Presidential general election to Senate election radosignation forms were sent. Given that these restribution forms were sent much later time 60 days after the receipt of the excessive Presidential primary contributions, the Audit Staff maintained they were untimely as to the redosignations from the Presidential primary to the Presidential general election.

At the exit conference, the Audit staff provided BFP representatives with a schedule of the errors for the untimely resolved excessive contributions. A discussion ensued regarding the adequacy of letters used to support redesignations of contributions to the general election.

On September 26, 2008, BFP submitted its response to the matters presented at the exit conference. The response acknowledged that the untimely redesignation issue arises from BFP's inshility to provide presumptive indesignation letters. Although confident that such letters were timely sent, BFP staff were unable to locate the letters or evidence that they were sent and believe they were inadvertently lost when its location changed in the spring of 2008. BFP further explained the letter would have been prepared using a template on a BFP computer that was subsequently "wiped clean" and sold when its assets were liquidated following the Candidate's withdrawal from the presidential campaign.

BFP inffered the following circumstantial evidence to support that the lessues had, in fact, been sent:

- BFP submitted a complete library of "cure" letters, whether for excessive contributions or missing contributor information. In addition, its Contribution Review Procedures made reference to presumptive redesignation and/or reattribution letters and templates for obtaining redesignations and reattributions are provided. BFP files contained other compliance letters sent for problematic contributions and those requesting additional information. BFF noted that it is unlikely that it would send this array of compliance letters and omit presumptive redesignation and/or reattribution letters.
- The individual primarily responsible for sending the compliance letters, including lettern to movive excessive contributions, had afterific reculientism that presemptive racksignation and/or restribution letters had been sent. However, this individual is now deceased; therefore, BFP is unable to obtain a signed affidavit. BFP staff confirmed her recollections, and that she was meticulous and conscientious in performing her duties.
- BFP has been contacting recipients of presumptive redesignation and/or reattribution letters and although some do recollect receiving such a letter, none have been able to furnish a copy. Should any be located, copies will be forwarded to the Audit staff. No copies have been provided.
- Finally, EFP concurred with the Audit staff's position that those letters sent to redesignate contributions to Citizens for Biden serve to demonstrate that BFP did not fail to resolve a material number of excessive contributions. According to BFP, these letters reflected an understanding by the contributor and BFP that the

excessive portion had been properly resolved and expressed the donative intent of the contributor.

The Audit staff did not believe that BFP's response was sufficient to document that presumptive redesignation and/or reattribution latters had been sent.

Preliminary Audit Report Recommendation

The Audit staff recommended BFP provide documentation demonstrating that excessive contributions (\$1,092,899) were timely reattributed and/or redesignated. Such documentation was to include evidence that timely presumptive reattribution or redesignation letters were sent; copies of timely signed and dated reattribution/redusignation letters; or, any other decumentation which indicated a timely reattribution and/or redesignation was distained. BFP was invited to pravide any other comments it felt were relevant to this issue.

Committee Response to Preliminary Audit Report

In its response to the preliminary audit report, BFP provided information reiterating its earlier response to this issue. Declarations were submitted from four contributors who recalled receiving a presumptive redesignation notice from BFP. The response noted that none of these individuals retained a copy of the notice, because, unlike other "cure" letters, no aution was required by the contributor unless he or she objected to the redesignation. In addition, a declaration was submitted from a BFP staff member who worked directly for the now doceaned individual required for managing BFP's standing and retention of cure letters. His declaration stated that at the direction of hie now deceased supervisor, he regularly sent presumptive designation letters to contributors who made primary election contributions in excess of \$2,300. The response concluded by asking the Commission to accept its contention that presumptive designation letters had been sent.

Committee Response to Braft Final Audit Report

In response to the draft final audit report, BFP submitted a revised attestation from the staff metaber discussed above. His declaration now states that he personally "prepared and sent 'presumptive designation' notices to contributors who had contributed in aggregate more than \$2,300" and that he would send those letters within 60 days of receipt of the contributions.

Audit Staff's Assersment of Committee Responses

The response to the preliminary audit report reiterated points made in BFP's response to the exit conference and included declarations containing information similar to that provided in response to the exit conference. In response to the draft final audit report, the declaration was revised to address the staff member's personal knowledge and the timeliness of the presumptive letters. Though no direct evidence supporting these declarations or entablishing that the actions were timely was included as past of those responses, BFP did produce latters of redesignation to CFB, which the Audit Division staff considered adequate but untimely, and therefore, the staff did not resommend a payment to the U.S. Treasury.

Commission Conclusion

Given the Committee's unique dircumstances in this matter; the circumstantial evidence presented by BFP, including a declaration from a BFP stuffer who attested to sending redesignation notices within 60 days of receipt of an excessive contribution; declarations from contributors who recall receiving redesignation letters; and sample letters from BFP's forms library, the Commission concluded there was information to support BFP's assertions that it had sent presumptive redesignation letters for these contributions. BFP has not, however, satisfied the recordkeeping requirements of 11 CFR §110.1(1)(4)(ii) and (5). Nevertheless, because BFP was able to demonstrate that it obtained signed redesignations of the contributions to the senatorial campaign, Citizens for Biden, the Commission concluded that no payment to the U.S. Treasury for such redesignated contributions is required. The Commission approved (his finding.
